DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kanbara (JP 2000-149970, May 30, 2000). Kanbara discloses a power generation system with a pure water tank having a pure water zone with an upper space not filled with water and an antifreeze zone configured outside of the pure water zone and the antifreeze (methanol) will have a freezing point lower than a lowest temperature of a service temperature range of the water tank.

Allowable Subject Matter

3. Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
